

MARCH **POINT OF USE WATER COOLERS**

Calling all Filter companies! Have you ever considered selling point of use water coolers to your clients? Point of use water coolers are designed to house most filtration systems and are an ideal way to obtain repeat business with ongoing filter changes.

The point of use water coolers come in 3 different ranges: The PB1, a compact bench top unit available in cook and cold and the freestanding round and square RP and SP series available in cook and cold and hot and cold versions.

For further details on this extensive range, to discuss your requirements, or to place an order, please contact the Aqua Cooler sales team. Tel: 02 9721 9333
